Networking: Cisco IOS, VLANs, routing/switching, TCP/IP, layer 1--3 troubleshooting

Office Tools: Microsoft Office Suite (Word, Excel, Access, Outlook --- 97 through 2010), Google Workspace (Docs, Sheets, Gmail, Drive), LibreOffice

Communication: Phone support, internet chat, email, escalation coordination, technical documentation

PROFESSIONAL EXPERIENCE

Teleperformance USA, Salt Lake City, UT

Total Tenure: May 2005--October 2008 (3+ years across three client contracts)

Hardware Support Technician --- Dell Tier 2 Contract

July 2007--October 2008

- Achieved Dell Tier 2 Certification for advanced hardware diagnostics and complex troubleshooting
- Resolved 40+ technical issues daily via phone and internet chat; maintained 85%+ customer satisfaction rating
- Provided remote desktop support using **TeamViewer**: guided users to support site, issued one-time session code, remotely diagnosed and resolved desktop issues
- Served as Resolution Specialist: mentored junior agents on complex troubleshooting scenarios and escalation procedures
- Dispatched field technicians and coordinated parts replacement for critical hardware failures
- Diagnosed hardware failures across Dell product lines: servers, workstations, laptops, peripherals
- Launched Core Business Group Internet Chat support channel as first-wave team member
- Supported Windows XP and Vista environments for consumer and business clients

Internet Support Specialist --- Clearwire Contract

April 2006--July 2007

- Provided Tier 2 technical support for wireless broadband services and emerging VoIP technologies
- Certified as VoIP Subject Matter Expert (SME): provisioned customers for VoIP services, troubleshoot SIP connectivity issues
- Earned Clearwire Email Specialist certification; resolved advanced email configuration and webhosting issues
- Assisted agents as Tier 2 escalation resource for complex technical issues

Cable TV Support Technician --- Cox Contract

May 2005--March 2006

- Provided Tier 1/2 technical and billing support for cable television services via phone
- Processed service requests and scheduled on-site technician appointments
- Utilized AS/400 database for account access when primary Java application was unavailable
- Maintained 80%+ quality assurance score throughout tenure

ITT Systems (DoD Contractor), Afghanistan

Network Administrator

September 2009--May 2010

Security-cleared administrator for DoD communications infrastructure in combat zone

- Maintained dual-tier classified network supporting 200+ users; primary Cisco switch/router administration (VLANs, ACLs, routing protocols)
- Imaged and configured Windows workstations: OS deployment, Microsoft Office, DoD-standard security settings
- Administered Active Directory: computer account provisioning for domain joining, user onboarding/offboarding, password resets, account management
- Performed SATCOM/crypto maintenance and implemented critical encryption protocol updates
- Provided Tier 2/3 escalation support for SATCOM and systems administrators
- Earned CompTIA Security+ certification during deployment

RidgeCrest Herbals, Salt Lake City, UT

Linux System Administrator & VoIP Administrator

May 2012--February 2014

- Administered heterogeneous Linux environment for 15-person team; maintained 99%+ uptime for all critical systems
- Maintained Windows XP/7 client workstations alongside Linux infrastructure (mixed-OS environment)
- Provided SSH-based remote administration and primarily in-person desktop support for staff
- Administered VirtualBox VMs for development, testing, and legacy application support
- Created Bash automation scripts for backups, user management, and system maintenance; reduced downtime 40%
- Deployed and supported FreeSWITCH VoIP PBX: 15 SIP phones, voicemail, fax, hunt groups

Convergys, Murray, UT

Total Tenure: April 2000--November 2001 (1.5 years across two client contracts)

@Home Internet Support Technician --- AT&T Contract

April 2000--August 2000

- Provided Tier 1 technical support for cable modem internet services (connectivity, email, browsing)
- Utilized AS/400 for account access; coordinated with NOC for outage information and escalations

Provisional Technical Engineer --- AT&T Managed Internet Services

August 2000--November 2001

- Configured Cisco and Paradyne routers/CSU/DSUs for T1/FT1 business internet circuit installations
- Troubleshoot layer 1--3 connectivity issues; coordinated with multiple AT&T vendors
- Certified as AT&T Provisional Technical Engineer

EDUCATION
