June 14, 2026

KeyBank 183 East Main Street Ashland, OR 97520

Dear Hiring Manager,

I am writing to apply for the Teller position at KeyBank's Ashland branch. With a background in high-volume data processing, customer service, and accurate record handling across multiple industries, I am confident I can deliver the accuracy, professionalism, and client focus your branch requires.

My most relevant experience comes from my time as a Data Conversion Operator at the United States Postal Service, where I maintained under a 4% error rate while processing thousands of items daily under strict production standards. That discipline — doing accurate work consistently, not just occasionally — is exactly what financial transaction accuracy demands. At Harry and David I processed 20+ customer orders daily during high-volume seasonal periods, verifying data integrity while maintaining pace under pressure. I have also worked with AS/400 database systems across several customer-facing roles, giving me familiarity with the kind of back-end record systems common in financial services environments.

My customer service background spans over a decade across technical support, order processing, and account management roles. I am comfortable interacting with the public professionally, handling sensitive account information with discretion, and de-escalating difficult situations calmly. I hold a valid Oregon driver's license and am able to work Saturdays as required.

I am available to start immediately, am open to part-time scheduling, and am reliable in attendance. I am a detail-oriented worker who understands that accuracy in financial transactions is non-negotiable.

Thank you for considering my application. I look forward to discussing how I can contribute to KeyBank's client experience.

Sincerely,

Allen Schultz 801-550-0865 allen.schultz@gmail.com
